THE MAGNIFICENT COLOURS OF MUSIC

NEVER JUST A DREAM
ALBUM LYRICS & NOTES

*"Summer 1986 wondering if all my love of music, people, and wish to change the world could actually lead to a career as a singer/songwriter was it real or was it just a dream. Almost as if in response, this song came through and brought a very beautiful smile to my face and to my heart. I've loved singing this song and its treasured meaning ever since" **Mark Fenster***

Lyrics:

NEVER JUST A DREAM

In the night, when you've walked alone through the cobbled roads of stone
Reaching out, wishing your thoughts could let you know

Find your way, fly into your dreams, feel the mountains, touch the streams
And let the wonder in your eyes just let you go

Is it just a dream you've had so long, is it just the sunlight in your eyes
Can you find the meaning of the song whispered in your mind?
Follow all the clouds that lead you home, let the rainbow guide you through the storm
And you'll find the song that's in your mind is Never Just A Dream

So don't run away, don't keep it inside, the road can seem too long sometimes
And the wind, strong on your shoulders, can weigh you down

For all you know, and all you've believed, you know the magic just won't leave
So hang on to what you treasure, you'll hold the crown

Is it just a dream you've had so long, is it just the sunlight in your eyes
Can you find the meaning of the song whispered in your mind?
Follow all the clouds that lead you home, let the rainbow guide you through the storm
And you'll find the song that's in your mind is Never Just A Dream

Is it just a dream ... It's Never Just A Dream
